

QUALITY CERTIFICATE

Burgos, a 05 de Junio de 2007

Fabricación de Mallas Vicario S.L. (FAMAVI), certificated in its Quality System by Bureau Veritas in ISO 9001:2000, certifies that the “Cremallera” fencing post diameter Ø 38, Ø50 y Ø70 mm that manufactures and commercialises, and depending of the post model with thickness of 1mm (for Ø38), 1,2mm (for Ø50) and 1,5mm (for the Ø70), are made from cold rolled steel sheet Pre Galvanized (made of hot dipped galvanized) Z275 meeting the UNE-EN 10142 requirements with an average 275g/m² (approximately 40 microns coat).

The finishes of the post can be supplied in pre galvanized, pre galvanized + pvc coated or hot dipped galvanized wire.

The **Pvc Coated** finished is made through an electrostatic application of painting in polyester dust meeting the Norm UNE-EN ISO 2808, with 50-70 micron thickness, put later in an oven at 200°C. Previously to the painting cover, the material is treated with a degrease alkaline to pickle, wash with demineralise water and dry.

In the Hot Dipped Galvanized and meeting the Norm UNE-EN ISO 1461/99, has an average of 45 micron or 325g/m² for thickness lower of 1,5mm and 45-55 micron or 325-395g/m² for thickness from 1,5mm to 3mm.

The temperature of galvanization is 450°C and the Zinc melting is 420°C.
